

Development or Displacement ?

Snapshots from Small Scale Fisheries in Kerala

Dr. J.B. Rajan

Small scale fisheries in Kerala underwent drastic changes over the period, raising concerns whether the changes fuelled development or displacement in the sector. There have been noticeable changes the sector has undergone in respect of fishing activity, technology, fish availability, workforce, marketing, investment, management systems, and living conditions of the resource dependent communities. The content of this book is a selection of articles from a collection of 70 including some research studies over a period of last three decades. It shares the prevalent ambiguity and also gives the readers the prospect to judge for themselves as to what the sector has been through.
